Product overview & pricing information for Lemon Squeezy
Prepared: 6 July 2026 · Seller: Studio9 (Portugal)

Hi Shahan,

Thank you for the follow-up. Here is the requested information:

1. Product overview

Studio9 Medical Science is a digital education platform for health-sciences students (medicine, nursing, biomedical sciences, and related fields).

Each **module** is a self-contained online study package delivered through a web app. Students purchase access to one or more modules and study at their own pace.

What each module includes (per topic)

- Short **video** lessons
- **Podcast** versions for mobile/revision
- **Infographics** and visual summaries
- **Practice questions** (interactive quizzes)

Additional features

- **1-year online access** after purchase (no subscription)
- **Passwordless login** via magic link sent by email
- **Progress tracking** across topics and resources
- **Responsive web apps** — works on phone, tablet, and desktop

Currently available for purchase (pilot)

- **Medical Biology** — cell biology, molecular processes, cancer biology (19 topics)
- **Genetics** — basic genetics, inheritance models, clinical application (10 topics)
